

V3 SUCCESS STORIES

"I Love V3 and so thankful that a friend shared it with me! My only regret is that I didn't start using it the DAY she told me about it because I can't imagine going a day without it now. At the same time I was sampling V3 I discovered that a great friend of mine, Cynthia, was also testing the product. I contacted Cynthia, and we chuckled that we were again, at the same place at the same time in ...our lives. Cynthia and I discussed the business opportunity as we immediately saw the great opportunity and the powerful compensation plan.

So here we are; in less than 2 months Cynthia and I have lost over 30 pounds, we have become V3 Directors, we were the number 1 recruiters last month, we have made significant \$\$ and all due to the "Happy Skinny Pill" that allows you to eat, be happy and increases your energy level. --- Oh and by the way No More Hot Flashes!"
- Deb Landreman, WI

I started taking V3 on May 4, 2011. At the time I weighed 414 lbs., the heaviest I have ever been. I am diabetic and have high blood pressure too. Over two months time with V3 I have lost 49 lbs., my blood sugars are now completely normal as is my blood pressure! My doctor is amazed and I am now looking forward to losing all the weight I need to and I know I will. I now have a very profitable business as an added benefit because of how effective this V3 is!"

- T. Malchak, SC

I've struggled with weight most of my childhood and all of my adult life. Thirteen years ago I thought I had my cure with gastric bypass surgery. I would soon find out that this was just a band-aid and didn't fix any thing at all. My weight slowly crept right back on and then I started the weight loss roller coaster like everyone else. I started my weight loss again this past April. From April through the end of July I had lost about 20 lbs the old fashion way-not eating much, no energy and grumpy!

I was introduced to V3 the first week of August from a very good friend! After 2 days, I was down 5 lbs and knew I wanted to know more about this product. The rest is weight gone! I make a conscious effort every day to make healthy food choices. Some days are more successful than others, but I don't worry because V3 just keeps on working. I have a new found energy level that has lead my walking to walking/jogging 4-5 times a week. I never did this before. So I'm down 52 lbs and I know my goal weight is down the road, but I know the journey will be successful this time. V3 rocks & the business rocks even more!" – T. Sinclair, WI

V3 is the easiest thing I have ever done to lose weight. I have lost 70 pounds from 330 - 260 in a few short months, and I feel fantastic. To have something that gives you energy and focus, besides slamming your appetite and melting the fat, I'm always in a great mood. My blood pressure went from 160/120 to normal and my cholesterol went from 348 to 161. Now instead of starting my day out watching TV I start my day by working out....Everyone should be on this amazing little pill, thank you for introducing this powerful product to me!"
-Shedrick Simms, GA

"I started taking V3 60 days ago--down a total of 22 pounds and I am off all my thyroid & hormone replacement meds. Cholesterol is now normal (has been borderline for 3 yrs) I take just one capsule per day--no more sugar cravings and I FEEL more balanced--no more hot flashes either. I love the boost of energy--definitely the most simple thing I have EVER done to lose weight."

-Cynthia R. Maurice, OH

"Being a Registered Nurse for many years in the ER, I was extremely skeptical. The samples came and I shared one with my husband. He came home from work that afternoon and said, "I don't know what that was you gave me, but get it in this house. " Also, why don't you sell it too." I knew that I had felt good after one capsule, but I did not expect to get that response from him. I started V3 8/8/11.

As of 9/29/11, I have lost 15lbs. I feel amazing! I have energy again, and I'm able to sleep all night without "hot flashes" I can swim and do pool exercises now. My blood pressure is finally normal This product has been a major blessing and has helped to turn my life around in a very short time."
-Renee Cox, FL

When I first heard about V3 I was excited because I had been looking for a Safe and Natural way boost my energy level. I am overall quite healthy, enjoy staying in shape, but with my extremely active schedule I found myself tired when coming home after a long day. Within a short period after first taking V3 I noticed an incredible change. Not only did I have loads of more energy I also found that I that I had more focus and clarity even with my hectic schedule. The added benefit has been the 10+ pounds and numerous inches I have lost in the last 2 months, and I am still losing. I feel great and the compliments from people I haven't seen in a while are very flattering. Thanks to V3 I have more focus, energy, I'm happy, I'm losing weight and perhaps best of all my bank account is rising since I'm now distributing this Fantastic product!

M. Gaugert-WI

Who would think at the age of 50 I would run not one 5K but two 5K's. Life since V3 has changed dramatically for me. The reason I became a distributor is because of how many lives it is affecting for the better. V3 is a product that is responsible for a HUGE reduction in triglycerides and cholesterol and I have my own lab results to prove it. My lab (Triglycerides) value went from 296 down to ...94. Total cholesterol reduced from 182 down to 170. My glucose was 79. The reason for these lab improvements is because of V3. I tried very hard for the V3 to "fail" because I am a 27 year cardiac critical care nurse. I have extensive years experience in emergency medicine.

I see what obesity does to the human body. For the first time in my 27 year career; I see a solution. It promotes focus. V3 also contributes to my being more productive each and everyday because I have the energy to do it. There are patients being taken off their Blood Pressure medicines and statin drugs because of their success with V3. V3 simple is a tool that gives you ENERGY (not jitters or arrhythmias); it slams your appetite (which means no snacking because you don't feel like it); it improves your energy and that is why your (mood is elevated). Oh! By the way? the perk is weight loss! That's good enough for this experienced RN."

-R. O'Neill

"I started taking V3 three months ago after my good friend, Ginger Williford, called me to tell me about it. She brought me a sample and I was hooked. I've now lost 32 pounds so far and gone from a size 16 to a size 6. I have not weighed this little in over 9 years! I was considering getting on an anti-depressant before starting V3 but mood has changed so dramatically that I don't feel like I need that anymore. V3 is my happy, skinny, get your butt in gear pill! I believe in it so much that I signed up and have started my own team! V3 has changed my life! I can't keep this product in. I'm definitely having fun losing weight and making money!!!"

-Stephanie Sikes

"Since starting V3 in February, I am now down 47 pounds and wearing size 34 pants (Down from a size 42!) Because of the success I have had, my doctor also took me off my blood pressure and cholesterol medications after 15 years. I never thought being med-free would ever be a possibility. V3 has also given me energy and focus that seems to be dialed in just perfectly to whatever I need. Teresa is ...now down 30 pounds and from a size 12 to a size 4. She is at her target weight, but continues to take V3 for the energy and focus it gives her. This has been the most "user-friendly" product we have ever used and has completely turned our lives around. Based on our success, and the success of others we know, becoming a distributor became a no-brainer for us. Thanks to V3 for giving us our lives back!"
-M. and T. Dennison, NC

"I'm so happy with my results on V3 after four months on the product, I have lost a total of 17 lbs and dropped 3 dress sizes. The sizes dropped were amazing to me. The picture shows it. I feel more focused, happy, energized and in control. It's an incredible product that I won't go without. My recommendation to anyone wanting to lose weight? Take V3. Easiest thing I've ever done."

-N. Campbell

"I started taking V3 samples and lost 4 lbs the first week and I knew this was for me as nothing had worked so quickly before and without any side effects. My friend called to get my opinion of V3 and before she ask me, I told her, "I'm in, I want to share this with everyone". I probably was the easiest recruit that she has ever had. In 11 weeks I had lost 25 pounds and I had started a business ...without any effort. People were asking "what are you doing to lose weight?"

Surprisingly my total cholesterol number had dropped 18 points. It had not changed from the 255 range in over 10 years . I was advised to take medication by my doctor but I refused because of the side effects and I did not have the other risk factors. A few more pounds and V3 I expect my total numbers to be in the near normal range.

- S. Oliver, NC

On May 15th I was introduced to V3 by way of Angelique Ashley. She left the sample in my mailbox at home. The following morning I took the pill and immediately felt a difference in my energy level and my mood. Since then I have lost 37 pounds, weighing in today at 179.6. My blood pressure is normal, my thyroid is under control with only 1/3 of my thyroid that is still functioning. I became a distributor because I love the product and I love helping others that are like me who have struggled with losing weight. I love V3!"
- To'mika Cooley
